Site is an area of open land with green and brown
as predominant colors. Probably underlying vegetation.
Structure at site is impressive by it's size.

Very big.

There is more than one structure at the site. Others are
low and clustered. There is a ^{wooded} ~~wood~~ area at the site
and it's smoky. There is a ^{partially} ~~partic~~ ^{wooded} association
with other structures. "Fucky!"

Structures at the site are crumbled and ruined
are scattered. The site is isolated and
abandoned by events (AO). Something
destructive occurred here. It's not a
nice place.

Very dry dusty hole - ashy.
